

Week2_PL/SQL_ Stored Procedures

The screenshot shows the SQL Workshop interface with the 'SQL Commands' tab selected. The command editor contains the following SQL code:

```
CREATE OR REPLACE PROCEDURE raise_salary_by_level AS
BEGIN
  UPDATE employees SET salary = salary + 1000 WHERE salary BETWEEN 3000 AND 4999;
  UPDATE employees SET salary = salary + 500 WHERE salary BETWEEN 5000 AND 7999;
  UPDATE employees SET salary = salary + 200 WHERE salary >= 8000;
END;
```

Below the editor, the 'Results' tab is active, displaying the message 'Procedure created.' and the execution time '0.03 seconds'.

Procedure created.

0.03 seconds

The screenshot shows the SQL Workshop interface with the 'SQL Commands' tab selected. The command editor contains the following SQL code:

```
BEGIN
  raise_salary_by_level;
END;
```

Below the editor, the 'Results' tab is active, displaying the message 'Statement processed.' and the execution time '0.01 seconds'.

Statement processed.

0.01 seconds
